Florida association makes report on rates, committee of, 7-34
Fundamental principles and natural trend of telephony, by B. G. Hubbell, 18-23

G

Government anti-trust suit against Bell combine, 5-23, 21-23, 22-17, 22-19, 24-22, 25-40.
C. J. Smyth comments on, 12-28
Government ownership urged by postmaster general, 25-23
Of all wire systems, consider, 24-21
Question, the, 16-21
Government telephones in Great Britain, 6-19
Great Britain, government telephone in, 6-19
Great Britain telephone development slow, 13-28
Growing town, the problems of a, by H. M. Wilson, 12-52
Growth of the telephone in India, the gradual, by George Cecil, 5-25

H

Hotel case, interchange of service ordered in Oregon, 24-37

I

Ideal service, aim for, by Jay G. Mitchell, 2-38
Illinois governor on control of public utilities, 11-23
Latest state to have public utilities commission, 1-30
Telephone & Telegraph Co., Chicago situation develops, 3-21
Independents heartily endorse National bulletins, 12-33
Independent Telephone Association of America, by W. S. Vivian, 17-21
Telephone Association of America, information sought by, by W. S. Vivian, 19-23
Independent's opportunity, the, 23-18
India, the gradual growth of the telephone in, by George Cecil, 5-25
Indiana, Morgan properties in, active competitors of Bell? 20-25
New Independent organization in northern, 22-28
Indianapolis, application for measured service rates in, 25-32
Induction and repeating coils, by A. W. Clement, 11-36
Induction as affecting telephone and telegraph lines, by P. J. Howe, 2-48, 3-42, 4-35, 5-42
Induction, legal aspects of interference by power lines, by A. H. McMillan, 5-35
Inductive interference, progress report on study of, 16-39
Inspector and the troubleman, by Stanley R. Edwards and A. E. Dobbs, 1-44
Inspection of telephone equipment, substation, the routine, by W. W. Kingley, Jr., 1-25
Interference by power line induction, legal aspects of, by A. H. McMillan, 5-35
Interstate Commerce Commission wants engineers and inspectors, 18-41
Iowa Independent telephone company, development of an, by G. S. Peck, Jr., 24-44
Iron wire in railway telephone service, use of, by John A. Kick, 13-36

J

Japan, the demand for telephone service in, 19-37
Johnstown Telephone Co., the story of, 11-26

K

Kansas City, automanual equipment to be installed in, 6-44
Railroad terminal, equipment for, by John H. Finley, 16-48
Keystone Telephone Co. report for six months ending June, 1913, 3-26
Report for month ending July 31, 8-27
Report for October, 22-44
Report for month of November, 25-29
Keystone Telephone Company's statement reflects prosperity, 17-38
Kyanizing process of wood preservation, review of, 15-35

L

LaCrosse Telephone Co., La Crosse, Wis., has another excellent year, 9-34
Keeping of telephone construction and replacement costs of the, by Wm. Guthrie, 19-19
Legibility in toll and measured service tickets, 16-37
Lincoln Neb., commission grants raise in rates, 1-28
Rate case, Nebraska commissioner files dissent in, 11-39
Rate case, Nebraska commission's finding in, 3-31
Line maintenance, a suggestion for reducing, 24-35
